OVERVIEW

Concentric Investment Partners is a private investment firm that provides unitranche and subordinated debt, as well as equity co-investments, to support lower-middle market businesses throughout the U.S. Concentric typically invests alongside financial sponsors to support changes of control, acquisitions, growth, and recapitalizations.

Our team has an extensive track record investing together across a wide range of market conditions and has invested \$1.6 billion in more than 120 businesses over the past three decades. Concentric currently manages more than \$500 million across two SBIC funds.

Our approach to investing is marked by thoughtfulness, flexibility, and responsiveness. We are more than lenders – we are partners, helping our portfolio companies achieve their goals and magnify their positive impact on their employees, communities, and industries.

CORE VALUES

Stewardship

To be entrusted with others' capital is a serious charge and high calling. Our success is measured by adherence to our core values and the financial returns delivered to our investors.

Teamwork

We achieve better results when we work collaboratively. Our success starts and ends with authentic relationships. Doing good work with great people is a lot of fun.

Humility

We aspire to put the needs of others before our own; we seek to be givers, not takers. We make mistakes and we admit them. We seek to learn from others and to accept feedback.
